## OTHER INFO

Bodegas Ateca is based in the village of Ateca, in the province of Zaragoza, fourteen Km away from Calatayud. Old vines of Garnacha are planted on the hillsides at about 3,000 ft above sea level. There is a range of soil types throughout the region, however most vineyards could be described as having gravely clay loams. The clay is at depth and allows for the vines to obtain moisture and be dry grown even though there is very little rainfall in the region.
