## AWARDS & ACCOLADES

NV ~ 91 Points. BEST IN CLASS - Alberta Beverage Awards 2025

NV ~ 90 Points. "New to me, this Pere Ventura Chic is a blend of Xarel-lo, Macabeu and Parellada from around the low Penedes region of Catalonia. Expect classic notes of orchard fruits and lime, preserved melon and bread dough along with chamomile tea. It has a nice mousse and the Xarel-lo really stand outs to me thanks to it's liveliness; it has a creamy edge, nice roundness with fleshy fruit and a precise persistent finish." - Daenna Van Mulligen, Winescores.ca, May/2022

NV ~ "Chic is a straight up Cava with a medium persistence, toasty apple, green apple, lees, and citrus notes. So clean and fresh, it beckons for a mid-afternoon tapas party on the patio." - Gismondi on Wine, Apr/2022

NV ~ "Clean and correct Cava, with simple green apple and lemon fruit that's backed by a subtle yeastiness... Chic is a blend of traditional Cava varieties, aged for a minimum of nine months on lees." - Geoffrey Moss MW - Gismondi on Wine, Nov/2025

NV ~ "Fresh, lively, creamy. Pere Ventura Chic is a blend of Xarel-lo, Macabeu and Parellada from around the low Penedes region of Catalonia near Barcelona. It's a pretty bubbly with nice complexity and exceptional quaffability. Notes of lemon-drops and honeycomb, white peach, apple pear and citrus blossom lead to a juicy palate with a creamy mousse. Great fruit expression on the palate; a delicious and well-priced Cava." - Daenna Van Mulligen - WineScores.ca, Dec/2025

NV ~ "The first duty of Cava is to be clean and fresh, preferably with a bit of fruit and no sugar. Chic has all that and a bit more. It features a wealth of green apple and citrus, with just a hint of lees and yeast... ready to drink with a favourite seafood appetizer before dinner. Chic is a blend of traditional Cava varieties, aged for a minimum of nine months on lees." - Anthony Gismondi - Gismondi on Wine, Dec/2025

## OTHER INFO

The three varieties used for Chic come from the Penedes region. The climate is Mediterranean, with mild winters and warm summers. The Penedes Baja is the hottest region due to its proximity to the sea. The climate is cooler in the Central and Penedes Alta, with the latter being more hilly and with a slight continental climate.
