OTHER INFO

El Bonhomme was created as a new easy concept wine for a younger generation eager to learn and discover the complex world of wine through messages that define our time and youth: travel (viaja), feel (siente) and imagine (imagina).

The new generation wine lover is all about links, communication and contacts. The red button is the link between the three feelings of the El Bonhomme and moreover projects the recycled "vintage" feeling of well being. El Bonhomme is made by Nathalie Bonhomme and Rafael Cambra at the Rafael Cambra Winery in Valencia Province.
